

# P3 Series 2

August - October 2016

---

## P3 Series 2 - Product Overview

### **New, improved edition of P3 Headphones**

A refreshed version of the successful and highly portable P3 headphones with a new premium leather finish.

### **Improved Audio**

To deliver natural-sounding response and exceptional clarity for headphones this size, we redesigned the driver including a unique damping system to control diaphragm movement.

### **Quality materials**

P3 Series 2 is crafted from the finest materials, including aluminium and sheepskin leather, not just for performance but also luxury and durability.

### **Maximum portability**

P3 Series 2's smart easy fold design means they easily slip into a pocket or purse, or in its bespoke case.

<b>Inputs:</b>	3.5mm stereo jack (TRRS 4-pole CTIA spec.) (TRS 3-pole unbalanced stereo spec.)
<b>Weight:</b>	130g

## P3 Series 2 - User benefits and key stories

### **1. Better performance**

Thanks to improved components and better acoustics, the leather-clad P3 Series 2 is the best sounding affordable headphone we have ever produced.

### **2. Smart design**

P3 Series 2 retains its lightweight construction and innovative folding mechanism, which is both reassuringly strong and incredibly comfortable, but also perfect for stowing away.

### **3. Improved drive units**

Our passionate engineers have worked tirelessly to improve the P3 Series 2's drive units, with a number of seemingly small changes delivering an incrementally much improved performance.

### **4. Quality materials**

P3 Series 2 is crafted from the finest materials, including aluminium and sheepskin leather, not just for performance but also luxury and durability.

### **5. Portability**

P3 Series 2 are perfect for delivering pristine sound on the move. They are robust yet lightweight, easy to fold away and come with their own hard shell carry case to protect them when not in use.

### **6. Smart features**

P3 Series 2 come supplied with a choice of cables including a mic/remote option ideal for using with an iPhone. Cables are easy to change thanks to the simple to remove, replaceable ear pads.
